Report on G20 events

Theme: “વસુધૈવ કૃત્યાબકમ”

Date: 23-01-2023

Government Science College, Vankal, recently hosted a one-day event on January 23, 2023, as part of the G20 activities, themed “વસુધૈવ કૃત્યાબકમ”. The event brought together heads and visiting faculty from various departments. Dr. Parthiv Chaudhari, the Principal and Patron of the event, highlighted the significance and vision of India's G20 presidency. Dr. Hemal Vankar, Assistant Professor and Head of the Department of Physics, served as the Convener of the event. Dr. Vankar delivered a compelling PowerPoint presentation, inspiring active participation among students.

The event featured two key activities: an essay writing competition and a debate. The essay competition centered on the theme “વસુધૈવ કૃત્યાબકમ”, encouraging participants to explore the G20's role in promoting global unity. The debate focused on the provocative topic "Is India Contributing Enough to the Global Economy?", stimulating thoughtful discussion among teams. With 124 attendees, including 51 participants and faculty members, the event saw enthusiastic student engagement. Participants shared insightful perspectives on the G20 and global economic issues. Judges Dr. Hemal Vankar, Dr. Anilkumar Singh, and Mr. Vanaraj Kagada recognized the top three participants, awarding them 1st, 2nd, and 3rd places to encourage further involvement. The event concluded with a feedback session, where students provided valuable insights into their understanding of the G20. This event not only raised awareness about the G20's global

significance but also fostered a spirit of active participation and intellectual dialogue among students and faculty.

For students, participating in such events is immensely important. It exposes them to critical global issues and encourages them to think beyond the classroom, promoting a broader understanding of international relations and economics. Engaging in essay writing and debates hones their research, critical thinking, and public speaking skills, which are invaluable for their academic and professional futures. Furthermore, understanding India's role in the global economy and international forums like the G20 helps students appreciate their country's contributions and challenges on the world stage, instilling a sense of responsibility and global citizenship. This event provided a platform for students to voice their opinions, develop their viewpoints, and gain confidence in discussing complex topics, preparing them to become informed and active global citizens.
