

Snake Awareness Program

Government Science college, Vankal, organized a successful Snake Awareness Program to educate students about snakes and dispel common myths. The program aimed to promote respect for these vital creatures and ensure safety in areas where they might be encountered. Interactive Session included an engaging presentation covering: Snake biology and ecology, Identification of common local snake species (venomous and non-venomous), Debunking myths and misconceptions about snakes, Safe snake handling techniques, and Proper first-aid procedures for snakebite. The program received a positive response from students. They gained valuable knowledge about snakes, their role in the ecosystem, and how to coexist safely. The interactive format and engaging presentation fostered a better understanding and appreciation for these often-misunderstood reptiles. The Snake Awareness Program at Government Science college, Vankal was a successful initiative in promoting snake awareness and responsible behaviour. The program empowered students with the knowledge and skills to navigate encounters with snakes confidently and safely.
