

# Webinar on Birds Call and Songs

On 11 November, Government Science College, Vankal organized a webinar titled "Birds Call and Songs ". This webinar explored the fascinating world of bird calls and songs. Birds use vocalizations for a variety of purposes, including communication, attracting mates, and defending territory. By studying bird calls and songs, we can learn more about bird behaviour and ecology.

**Speaker:** Dr. Jigar V. Patel

## Important Points of the Webinar:

- The different types of bird vocalizations (e.g., calls, songs)
- How birds produce sound
- The function of bird calls and songs (e.g., communication, mating, territorial defence)
- How to identify birds by their calls and songs?
- The importance of bird calls and songs for the environment

## Key Learnings:

- Bird calls and songs are a complex form of communication.
- Birds use vocalizations to convey a variety of information to each other.
- Studying bird calls and songs can help us to learn more about bird behaviour and ecology.
- Bird calls and songs are an important part of the natural world.

The webinar on 'Birds Call and Songs' provided a fascinating look into the world of bird vocalizations. By learning more about bird calls and songs, we can appreciate the complexity of bird communication and the importance of birds for the environment.
